APPLICATION FOR DUST ABATEMENT (CALCIUM CHLORIDE)

Applications accepted in the early spring and fall, with payment in advance

APPLICANT NAME: _____

MAILING ADDRESS: _____

MUNICIPAL ADDRESS: _____

LEGAL LAND DESCRIPTION: _____

E-MAIL ADDRESS: _____

TELEPHONE NUMBER: _____

- Calcium chloride dust abatement on a 200-metre strip adjacent to a farmstead, residence or other development which is within 200 metres of the road centre line of the municipal road.
- The repair of potholes within a dust control area and general maintenance will be the responsibility of the county and will be completed during the regular road maintenance cycle.
- Existing oil bound (cold mix) dust control that was placed prior to January 1, 2025, will be assessed on an ongoing basis for maintenance. If the condition of the surface has deteriorated to a point where normal maintenance will not sustain the treatment, the road will be restored to its original gravel condition at the discretion of the county. In such a case, the County will notify the applicant by letter prior to this work being done. At such time, the special tax levy assessed annually for this surface type will be removed from the applicant's tax roll.
- If an applicant would like an existing oiled dust control section removed and turned back to gravel, they are to notify the county in writing.
- The county will, by bylaw, under the applicable legislation, impose a Special Tax on the property of the farmstead, residence, or other development adjacent to the area to the dust control for existing oil bound (cold mix surfacing) only. **Calcium chloride sections will not be subject to a Special Tax, as it is a single application treatment.**

DUST ABATEMENT COST SHARE

2025 Rates	Applicant Share/Cost	County Share/Cost	Total Share/Cost	Check applicable
SINGLE application	60% = \$1350	40% = \$900	100% = \$2250	
ADDITIONAL treatment	50% = \$1125	50% = \$1125	100% = \$2250	
A 60 meter or less gap between a new and existing dust control patch, a continuous segment is required.	100%	0%	100%	

NOTE: Cypress County does not guarantee the effectiveness and longevity of the dust control product. Once applied, no refunds will be granted.
